Caution in Person

Since July 1, 2016, the College has been posting cautions in person and SCERP's on the public register.

A "caution in person" is a decision made by the Inquiries, Complaints and Reports Committee that a concern raised in a complaint or in a formal investigation is sufficient to require the chiropractor to attend at the College to receive verbal education from a panel of the Committee on how to practise in a way to prevent similar concerns from arising in the future. A caution in person does not involve a finding of wrongdoing and is not disciplinary in nature.

Effective Date: March 30, 2021

Appeal Status: There was no appeal of this decision.

The Inquiries, Complaints and Reports Committee required Dr. Jeffrey Winchester to attend an oral caution on March 30, 2021. He was cautioned to comply with:

- Standard of Practice S-001: Chiropractic Scope of Practice;
- Standard of Practice S-016: Advertising;
- Guideline G-012: Use of Social Media; and
- Guideline G-016: Advertising.
